

Prep Academy NTI Menu

Preschool Age

Student Name _____ Parent / Family Name _____

Center _____ Date _____ Time Taken to Complete _____

DAY 8

Please choose one activity, circle which one you completed, and sign when completed.

Menus should be sent back when students return to school.

SCHOOL READINESS GOAL

Children will explore their environments through observations, manipulation, asking questions, making predictions, and developing hypotheses.

SINK OR FLOAT

Fill a tub with water, gather simple household items, and encourage your child to predict (or guess) whether an object will stay on top (float) or drop to the bottom (sink) before testing them out. Make a chart together to see how many they guess accurately.

RAMP AND CAR EXPERIMENT

Build ramps using cardboard, blocks, or books. Test toy cars on different ramps. Ask questions such as "which car will go the farthest?" or "how can we make it go faster?"

SHADOW INVESTIGATION

Observe shadows at different times of day. Ask "why do you think the shadow changed?" or "what happens when we move closer to the light?"

BUILDING CHALLENGE

Provide blocks, cardboard, or recycled materials. Encourage children to design and test structures. Ask "what could make it stronger", "what could we change?"

READ A BOOK TOGETHER

Title _____

In addition to the above activities, please read together each NTI day.

PARENT SIGNATURE

If you have any questions regarding NTI work, please feel free to contact your student's teacher.
